Sandy Stevenson

Willy Hagge pinch hit for George Wistos. Willy spent the first half of his presentation covering some real fact regarding the use of beef as a food and its true dietary affects.

Willy then talked about the controversy regarding the Ruby Pipeline project.

Ruby Pipeline Receives FERC Approval to Begin Construction –

El Paso Corporation (NYSE: EP) announced today that the Ruby Pipeline Project has received Federal Energy Regulatory Commission (FERC) approval to proceed and begin construction.

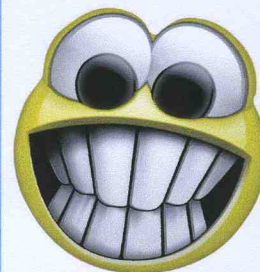

"We are very pleased that we have final FERC approval," said Jim Cleary, president of El Paso's Western Pipeline Group. "This approval is a milestone, successfully culminating more than two and one half years of outreach and comprehensive permitting at the federal, state, and local levels. In addition to supplying significant supplies of clean-burning natural gas to the western states, we are also proud that Ruby will employ almost 5,000 people from Wyoming to Oregon during

Ruby, the first-ever carbon-neutral pipeline to be constructed and operated, involves 680 miles of 42-inch pipeline and four compressor stations. Ruby will transport natural gas from an existing supply hub at Opal, Wyoming, to interconnections near Malin, Oregon. It will have an initial design capacity of 1.5 billion cubic feet per day.

El Paso has entered into agreements with Global Infrastructure Partners (GIP), whereby GIP will invest up to \$700 million in the Ruby project. Upon satisfaction of various closing conditions,

GIP will acquire a 50 percent equity interest in the project.

El Paso Corporation provides natural gas and related energy products in a safe, efficient, and dependable manner. The company owns North America's largest interstate natural gas pipeline system and one of North America's largest independent natural gas producers. For more information, visit [www.elpaso.com](http://www.elpaso.com).

## Happy Pot!

**Ellen-Two exchange students arrived safely!**

**George- Friday the 13th and great Rotarian's at Tribe Ride**

**Alan-BOS meeting**
