Got an  
Idea?  
Bring it up!

Bill Wilson brought by Steve Gagnon owner of Adin Supply for a Whats up in Adin? Talk.

*Below is the Adin Supply History*

The Adin Supply Company is a landmark that has retained its presence in the Big Valley area for over 100 years. Originally known as Roseberry & Knight General Merchandise, the first mercantile store was built by Roseberry, Knight and Harvey in 1871. It was located across the street from where the current Adin Supply resides today. It was purchased by Harper and Lumas in the early 1900s and re-named Big Valley Cooperative Association. In 1905 the town experienced a large fire that destroyed many buildings including the Co-Op. A new store was built in 1906 on the site where the store now stands.

When the store was first built, the roadbed was several feet below the porch, enabling wagons to back up for easy loading and unloading. Frank Harbert was the first man in Adin to own a car and you can be sure it

caused much to do to see him driving about in his horseless carriage. The first highway in the Adin region was built over Adin Mountain in 1919. In 1922 it was extended through Round Valley and in 1927 construction on the Big Valley highway was begun. The passage from Adin to Redding was not clear until after 1930.

In 1957, Lewis and Ruth Hays purchased Adin Supply. They operated the store until 1968 when their daughter Dorothy and her husband Dick Campbell took over the business. Dick and Dorothy owned the store for 36 years. In 2004 Dick and Dorothy retired from the business and sold it to Steve and Julie Gagnon.

Steve and Julie were enamored with this window into history. Within weeks they had begun to blend the nostalgia from 100 years ago with the conveniences of today, providing a full service grocery store for the community that is also a warm and welcome place to stop and visit.

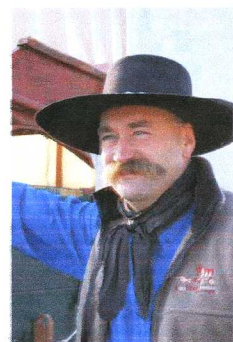

Visit their website at
